

**Tech your way, built to last.
It's that simple.**

The all-new ActivPanel 10 Premium and Promethean ActivSuite™ experience meets teachers where they are and keeps teaching and learning straightforward.

ActivPanel 10 Premium and Promethean ActivSuite™

55" 65" 75" 86" | 4K

- USB-C and HDMI output
- Integrated soundbar with 2 x 25 W + 20 W subwoofer*

- In-built 8-mic array
- Heat tempered, anti-glare, anti-fingerprint, and anti-smudge glass

Your environment, your choice

The ActivPanel 10 Premium comes with a choice of Android, Windows, or ChromeOS compute devices, allowing you to work in the environment that best suits the needs of your school or district. It includes two seats of Promethean ActivSuite, a versatile software suite that brings popular Promethean apps together in a single, easy-to-use toolbar - accessible on any Windows, macOS, or ChromeOS computer, whether at or away from the panel.

A license for ActivInspire is also included, providing a powerful desktop platform for lesson creation and delivery.

Intelligent interactive display

Get the best viewing experience for everyone in the classroom, and stunning visuals thanks to ActivPanel 10 Premium's enhanced display technology, including optical bonding, QLED and FALD. Interact with two sources at the same time, with touch-enabled Picture-in-picture.

**55" panel does not include subwoofer*

Free yourself

Teachers can be where they need to be, with their students. Thanks to ActivPanel 10 Premium's intelligent accessories, teachers are no longer tied to the panel. It's easy to move through presentations, highlight content, and control what's on screen with ActivPen 2, from anywhere in the room. Plus, teachers can bring up websites, edit text, and control the entire panel with the All-in-one Remote, with its trackpad and keyboard that fits into a pocket.

Secure by design and built to last

Invest in the best and support the sustainability goals of your school or district. Reduce energy consumption and achieve savings thanks to ActivPanel 10 Premium's local dimming technology. Save money and the environment by only replacing the compute device and not the entire panel.

Choose the computing device that fits with your ecosystem

OPS-A

- Android 14
- Google EDLA-certified
- Pre-loaded with Promethean Essential apps (Explain Everything Whiteboard, Annotate, Screen Share, Spinner, Timer)

- Access to Promethean ActivSuite
 - Explain Everything Whiteboard (web-based)
 - Spinner, Timer
 - Annotate, Screen Share Receiver
- Google-provided OS and security updates through 2030

Introducing our all-new intelligent accessories

All-in-one Remote

Easily control and edit content at and away from the panel. Quickly see all open apps and switch between them. Get instant access to Promethean ActivSuite with the click of a button.

ActivPen® 2

Easily write, highlight, and manipulate content. Teachers can choose what they want to do with this handy accessory that lets them control the panel from anywhere in the room.

Optional 4K ePTZ camera

Upgrade the setup with a custom-fit, cord-free camera featuring electronic pan, tilt, zoom, and manual privacy shutter. Combined with the built-in microphone and speakers, teachers will have everything they need to use with the selected video conferencing software.
