

Why Choose Optoma?

Complete Visual Solutions

As the #1 DLP® projector brand worldwide*, Optoma blends cutting-edge technology and innovation to deliver remarkable visual solutions designed to connect audiences with engaging video experiences. From laser projectors and professional displays to interactive and LED solutions, our award-winning portfolio is built to perform in any environment be it education, corporate, retail, and beyond.

Consultative Local Approach

Headquartered in California and supported by a dedicated team across North America, Optoma brings a strategic, hands-on partnership to every project. With local experts in sales, service, product management, and operations, we deliver the right solutions quickly and confidently.
