

ByteSpeed Trusted Advisor - LITE

Most organizations receive a Microsoft 365 deployment and are left to manage security, identities, devices, and data on their own. ByteSpeed provides ongoing guidance and co-management to help you continue getting value from your investment.

WHY ORGANIZATIONS CHOOSE BYTESPEED

- Move beyond a one-time Microsoft 365 setup
- Establish a secure and sustainable cloud foundation
- Improve security posture over time
- Stay current with Microsoft's rapidly evolving platform
- Maximize the value of existing Microsoft licensing
- Gain a trusted advisor for strategy, security, and adoption
- Scale services as your needs grow
- Piece of mind - we provide a level of secure access if you get locked out
- Consistency - We are there to help manage and you don't start from scratch when employees change

ONGOING QUARTERLY REVIEWS FOCUS ON

- Identity and access management
- Multi-factor authentication (MFA)
- Device and endpoint security
- Data protection and governance
- Retention and compliance policies
- Microsoft roadmap and feature updates
- AI and emerging Microsoft technologies
- Platform support

OUR CO-MANAGED APPROACH

- Quarterly strategic reviews, not just technical support
- Practical recommendations based on your environment
- Guidance from Microsoft cloud specialists
- Continuous improvement and security optimization
- Flexible services that grow with your organization

JUMP START PROGRAM - DESIGNED FOR A1, G1, BUSINESS BASIC LICENSE LEVELS

For organizations beginning their Microsoft cloud journey or use other cloud platforms for identity and device management.

What You Receive

- Secure Microsoft 365 foundation
- Quarterly health and security reviews
- Identity and device hygiene assessments
- Microsoft roadmap discussions
- Ongoing guidance and consulting
- Support hours for projects and assistance

SIMPLE ANNUAL PRICING
